## Environmental Phenomena

The unit may malfunction if subjected to radio-frequency interference. It should revert to normal operation when the interference stops. If not, it may become necessary to turn the power **OFF** and back **ON**, or remove and reinstall the batteries. In the unlikely event of an electrostatic discharge, the unit may malfunction and lose memory, requiring the user to reset the device by removing and reinstalling the batteries.

## Impact de l'environnement

Une défaillance de fonctionnement de l'appareil peut survenir s'il est sujet à des interférences avec les fréquences radioélectriques. Le fonctionnement normal de l'appareil devrait reprendre avec l'arrêt des interférences. Si ce n'est pas le cas, il peut s'avérer nécessaire d'éteindre et rallumer l'appareil ou de retirer et réinstaller les piles. Dans l'éventualité peu probable d'une décharge électrostatique, un mauvais fonctionnement et une perte de mémoire de l'appareil peuvent se produire. L'utilisateur doit alors retirer et réinstaller les piles pour réinitialiser l'appareil.
